-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 15 October 2004.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### DETAILED ACTION

The Examiner used the wrong name, Behringer, to identify the prior art reference (DE 196 15 144). For clarity the Examiner has changed the names on the rejections to reflect the correct name, Feldenz.

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Feldenz (DE 196 15 114).

Feldenz discloses an amusement device comprised of a vehicle 2 that can be moved over an elongated track 6 and a track portion 12. ~~The track portion can be~~ moved jointly with the vehicle from a first lower position to a second higher position. The track portion moves first in a horizontal direction and then to a vertical direction. In the Feldenz reference the track portion is attached to a large wheel. As the wheel moves the track portion, stays perpendicular to the wheel, and moves around and therefore moves in a horizontal direction and a vertical direction as the wheel spins bringing the track portion from the track on the right side of the figure to the continuation of the track on the left side of the figure.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 4 and 5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Feldenz (DE 196 15 114) in view of Kockelman (US 6,342,017).

Feldenz discloses the amusement device as disclosed above. However, Feldenz does not show the track portion to be moved with the use of pulleys and cables. Kockelman discloses an amusement device using pulleys and cables to move a vehicle from a lower position to a higher position. It would have been obvious to one of ordinary skill in the art to have applied pulleys and cables, like that of Kockelman, to an amusement device, like that of Feldenz, in order to provide for smoother and more efficient movement of the track portion from one position to the next.

***Allowable Subject Matter***

Claims 6-34 are allowed.

***Response to Arguments***

Applicant's arguments filed 10/04/04 have been fully considered but they are not persuasive. Applicant argues that the prior art does not disclose the features in the above rejected claims. The applicant states that the prior art does not show the vehicle to move to an angle to provide excitement to the passengers of the vehicle. The prior art of Feldenz discloses a vehicle moving in an arc from a lower level to a higher level. It is

understood that when moving in an arc one is moving at a given angle from one position to another. By elevating the vehicle would be a sufficient move to allow for passengers to achieve a level of excitement from the change in height.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

---

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Ngai (US 6,173,654) discloses an amusement device with a moveable track portion.
